10 Good Reasons to Buy a SunnCamp

100% COTTON CANVAS

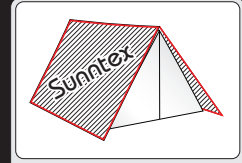

The 285gm/m² tight weave 100% cotton canvas used for SunnCamp's trailer tents offers high breathability to keep condensation to a minimum. Our fabric has been tested and used in the harshest conditions and is guaranteed to protect you and your family from the elements.

Breathable Flysheet

SUNNTEX ACRYLIC COATED MATERIAL

SunnCamp's Holiday 400 trailer tent is now available with a flysheet constructed from a heavy duty, hard wearing 280gm/m² 'SunnTex' polyester with an acrylic coating. This material is solution dyed to give strong colour that will last.

SunnTex
Acrylic Flysheet

BRITISH BUILT TRAILER BODY

SunnCamp's trailer tent body is built in our factory in the UK. The trailer tent body features a steel chassis with durable coated steel body panels and water and mildew resistant MDF board.

DELUXE KITCHEN

SE Trailer Tents come complete with a deluxe kitchen unit as standard. The unit comprises a stainless steel sink with draining board and a twin gas burner with a stainless steel hob and grill. The deluxe kitchen unit has plenty of storage space and the split kitchen top doubles as a worktop when closed. The whole unit clips onto the rear of the trailer when travelling.

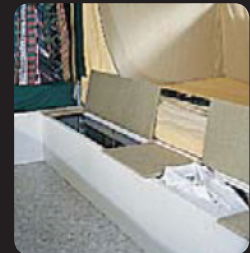

COSY BEDROOMS

SunnCamp trailer tents come with large comfortable, off the ground, double beds with deep foam mattresses to ensure a great night's sleep. The polyester/cotton inner tents provide privacy and a cosy atmosphere. Mattress covers are removable for easy cleaning.

BUILT IN STORAGE

In the trailer tent cabin, under each of the bench seats, you will find locker lids allowing access to the generous storage area.

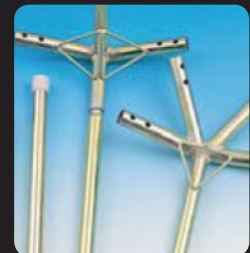

HEAVY DUTY ZIPS

Zips are generally the most used and vulnerable part of a tent. To set your mind at rest SunnCamp trailer tents are fitted with strong, heavy duty, No 10 self repairing zips on all exterior doors and openings.

STRONG METAL FRAME

SunnCamp's frames are made from zinc plated steel tube and the corner brackets are reinforced with extra steel bracing for improved strength and durability (with the exception of the Holiday 550 awning frame which is made from a 25mm hooped aluminium tubing). The awning frame on all models is designed for ease of erection with large parts of the awning frame spring linked.

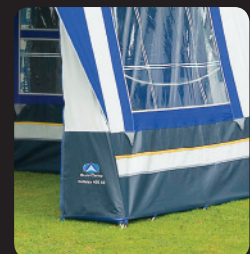

CURTAINS AND ROOF LININGS

SunnCamp trailer tent cabins are supplied with polyester/cotton curtains and roof linings as standard, creating a homely atmosphere. The curtains simply slide onto a flexible track and the roof linings clip onto the roof frame. SunnCamp trailer tent awnings have the same feature with the exception of the Holiday 550 model which has fitted cotton curtains to the front windows.

WIPE CLEAN BASE PANEL

It is inevitable that mud and dirt will splash onto your trailer tent and with this in mind we have designed SunnCamp's trailer tent flysheets (with the exception of the Holiday 550 awning) with a PVC coated polyester base panel at the bottom of the canvas to protect this vulnerable area. The panel is robust and durable and can be wiped clean.

 **Cotton Trailer Tents** Traditional and contemporary style trailer tents with flysheets in SunnCamp's 100% cotton canvas. Page 5-6

Erecting a Holiday trailer tent is quick and easy...

SunnCamp's Trailer Tent Cabins can be erected in minutes and can be used with or without the awning. We recommend use without the awning for short breaks, overnight stops or late arrivals. We recommend use with the awning for longer breaks.

Sunntex Acrylic Flysheet

- 'Sunntex' flysheet walls, a durable and hard wearing 280gm/m² solution dyed, acrylic coated polyester material.
- Double coated polyester roof for extra protection, patterned on the inside for a homely atmosphere.
- Two large two berth bedrooms including mattresses with removable covers. Both bedrooms feature ventilated side windows with external zipped covers.
- Further sleeping accommodation/storage available underneath the bedboards with the addition of SunnCamp's optional 'Under Bed Tents'.
- 4.0 metre detachable awning enabling the 'cabin' sleeping area to be used on its own for weekend use, overnight stays or late arrivals.
- 'Multi porch options - two zip out front panels which can be used in a forward or set back position. Using both front panels in a set back position creates an open sun canopy area. Create a useful porch area either side (as shown in the above images), using the extra wall panel supplied and positioning one panel forward and one panel set back.

- Two front and three side windows which allow lots of light into the living area. There is a further window to the rear of the cabin.
- The trailer tent awning features a 'push out' curtained kitchen extension with a ventilated side window and a fully ventilated 'push out' wardrobe/toilet area with zipped access.
- Storage pockets fitted to the front wall of the cabin section.
- Wipe clean PVC coated polyester base panel.
- Extra storage available in the cupboards under the bench seats in the cabin area.
- Full roof linings and curtains on easyslide track.
- Jockey Wheel and Spare Wheel included.
- SE model supplied with SunnCamp's deluxe kitchen unit comprising a stainless steel sink with draining board, twin gas burner with a stainless steel hob and grill. The kitchen unit clips onto the back of the trailer when travelling.

 - 600gm/m² hollow fibre filling
 - Polyester/Cotton shell and lining
 - Extreme temperature rating of -15 degrees
- ORDER REF: SB1512

OPTIONAL EXTRAS:

CARRY RACK

SunnCamp's Carry Rack is ideal for transporting bulky items. This useful rack provides two parallel bars and is fully detachable. Attach and secure items directly to the bars or alternatively fasten other attachments such as bike racks etc. (Not supplied). Maximum load for the Carry Rack is 30kg which must still leave the total trailer load within its maximum gross weight (please see page 3).

FRIDGE BOX

SunnCamp's Fridge Box is designed to accommodate most camping chest refrigerators, this useful storage box simply fits onto the trailer's 'A' frame. Even if you don't have a fridge, this is the perfect way to add extra storage space to your SunnCamp trailer tent.

UNDER BED TENTS

Need more bedroom space? Why not add extra bedroom space with our optional under bed tents? Your trailer tent comes with the provision to accommodate two SunnCamp under bed tents – one under each of the bed boards. These are ideal for the kids or for extra dry storage.

SIDE STORAGE BRACKETS

Side Storage Brackets enable you to tip your trailer onto its side for compact storage. SunnCamp's Side Storage Brackets have caster wheels, giving a degree of mobility on hard standings. When the trailer is on its side, for extra security, the 'A' frame can be removed and stored separately.

SPARE WHEEL CARRIER

A spare wheel is considered as an essential piece of equipment and is therefore supplied as standard with your SunnCamp Holiday Trailer Tent. The easiest way to store and transport your spare wheel is with a SunnCamp Spare Wheel Carrier. The Spare Wheel Carrier simply fits to the underside of the trailer body, freeing up storage space inside the trailer and making the wheel easily accessible when needed.

CO-ORDINATED FURNITURE AND ACCESSORIES

Co-ordinate your camping experience with products from the extensive range of accessories available from SunnCamp. Go to www.sunn camping.com to see the full range.
